SUMMARY

Startup operator who builds: product analytics, growth systems, internal tooling, and AI automation. At Picapool's Founder's Office, drove 3,000+ user acquisitions and shipped 15+ internal tools in 8 weeks. 29 products deployed across two startups, paid client work, and personal builds.

EXPERIENCE

Strategic Intern, Founder's Office | Picapool

Jul 2025 – Jul 2026

Hyperlocal Platform which connect user in there vicinity for various aspects.

Delhi

- Drove 3,000+ user acquisitions in 2 months through on-ground activation and multi-channel acquisition funnels. Built the attribution system (event fingerprinting, deduplication) behind every campaign, including a flat-feature launch that pulled 1,000+ housing submissions in 72 hours.
- Shipped 15+ production internal tools in 8 weeks, used daily by operations, growth, and founder teams: CRM with role-based access, WhatsApp API dashboard, campaign attribution, owner onboarding, and ops checklists.
- Built an AI data-analyst engine over a 79-table Supabase schema (AST-validated, read-only SQL) and a Telegram RAG bot: founders query the business in natural language and receive automated daily KPI digests (new users, time-in-app).
- Automated the growth stack in n8n: prospect enrichment (GetProspect, Skrapp, Tavily) with AI personalization notes synced to CRM, email warming, and WhatsApp Business API flows.
- Owned the group-buying rollout end-to-end across product, marketing, and field teams: 10+ live pools at 15-20 buyers each (Rs. 600-700 average order value). Ran the hiring pipeline and competitive research informing the founder's roadmap.

Growth & Marketing Intern, Founder's Office | UniLyf

Jan 2026 – May 2026
